Data Flow Diagram (DFD)

The Data Flow Diagram illustrates how information flows through the customer support system.

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Customer (Web/Mobile)	Registration	USN-1	As a customer, I can register using my email and password.	Account is created successfully.	High	Sprint-1
Customer (Web/Mobile)	Email Verification	USN-2	As a customer, I receive a verification email after registration.	Email verification activates the account.	High	Sprint-1
Customer (Web/Mobile)	Login	USN-3	As a customer, I can log in using my email and password.	Customer can access the dashboard.	High	Sprint-1
Customer (Web/Mobile)	Dashboard	USN-4	As a customer, I can view my support tickets and warranty details.	Dashboard displays active tickets and warranties.	High	Sprint-1
Customer (Web/Mobile)	Raise Support Ticket	USN-5	As a customer, I can create a support ticket for product issues.	Ticket is created with a unique Case ID.	High	Sprint-1
Customer (Web/Mobile)	Warranty Claim	USN-6	As a customer, I can submit a warranty claim with supporting documents.	Warranty request is submitted successfully.	High	Sprint-1
Customer (Web/Mobile)	Upload Documents	USN-7	As a customer, I can upload invoices and product images.	Documents are stored and linked to the case.	Medium	Sprint-2

Customer (Web/Mobile)	Case Tracking	USN-8	As a customer, I can track the status of my support case.	Current case status is displayed in real time.	High	Sprint-2
Customer (Web/Mobile)	Notifications	USN-9	As a customer, I receive email notifications for ticket updates.	Notifications are sent automatically.	Medium	Sprint-2
Customer (Web/Mobile)	Feedback	USN-10	As a customer, I can rate the support experience after case closure.	Feedback is stored successfully.	Low	Sprint-3
Customer Support Agent	Case Management	USN-11	As a support agent, I can view assigned customer cases.	Assigned cases appear in the work queue.	High	Sprint-1
Customer Support Agent	Case Assignment	USN-12	As a support agent, I can assign or transfer cases to other agents.	Case ownership is updated successfully.	High	Sprint-1
Customer Support Agent	Case Resolution	USN-13	As a support agent, I can update case status and resolution notes.	Case history is maintained.	High	Sprint-1
Customer Support Agent	Knowledge Base	USN-14	As a support agent, I can access knowledge articles to resolve issues.	Articles are searchable and accessible.	Medium	Sprint-2

Customer Support Agent	AI Recommendations	USN-15	As a support agent, I receive AI-generated recommendations for resolving customer issues.	Relevant suggestions are displayed.	Medium	Sprint-2
Service Manager	Dashboard	USN-16	As a service manager, I can monitor open, closed, and pending cases.	Dashboard displays real-time metrics.	High	Sprint-2
Service Manager	Reports	USN-17	As a service manager, I can generate service performance reports.	Reports are generated successfully.	Medium	Sprint-2
Service Manager	SLA Monitoring	USN-18	As a service manager, I can monitor SLA compliance.	SLA violations are highlighted.	High	Sprint-2
Service Manager	Workload Management	USN-19	As a service manager, I can reassign overloaded cases.	Cases are reassigned successfully.	Medium	Sprint-3
Administrator	User Management	USN-20	As an administrator, I can create, edit, and deactivate user accounts.	Users are managed successfully.	High	Sprint-1
Administrator	Role Management	USN-21	As an administrator, I can assign roles and permissions.	Users receive appropriate access rights.	High	Sprint-1

Administrator	Product Management	USN-22	As an administrator, I can manage product and warranty information.	Product records are updated successfully.	Medium	Sprint-2
Administrator	System Configuration	USN-23	As an administrator, I can configure workflows, queues, and email templates.	Configuration changes are applied correctly.	Medium	Sprint-3
Administrator	Audit & Security	USN-24	As an administrator, I can monitor system logs and audit trails.	Audit records are available for review.	Low	Sprint-3
