Empathy Map

Customer Empathy Map

Thinks	Feels
"I need quick assistance."	Frustrated when responses are delayed.
"I hope my warranty is still valid."	Worried about product issues.
"I want accurate updates on my request."	Anxious while waiting for resolution.
"I don't want to repeat my issue multiple times."	Confused if communication is unclear.
Says	Does
"Where is my order?"	Contacts customer support.
"My product stopped working."	Creates support requests.
"Can I claim warranty?"	Uploads invoices and warranty documents.
"When will my issue be resolved?"	Tracks case status through the portal.

Support Agent Empathy Map

Thinks	Feels
"There are too many repetitive tickets."	Overloaded with work.
"I need customer history immediately."	Pressured to meet SLAs.
"I should resolve this case on the first attempt."	Responsible for customer satisfaction.
"Automation would save time."	Stressed during peak workloads.
Says	Does
"Let me check your case details."	Reviews customer history.
"I'll escalate your issue."	Assigns or escalates cases.
"Your warranty is active."	Verifies warranty information.
"You'll receive an update shortly."	Updates case records and communicates with customers.

Service Manager Empathy Map

Thinks	Feels
"Are cases being resolved within SLA?"	Concerned about service quality.
"Which support queue is overloaded?"	Responsible for team performance.
"How can we improve customer satisfaction?"	Focused on operational efficiency.
"Are agents handling workloads fairly?"	Accountable for overall service delivery.
Says	Does

- | | |
|--------------------------------------|---|
| "Generate today's support report." | Monitors dashboards and KPIs. |
| "Reassign high-priority cases." | Balances workloads among agents. |
| "Let's reduce response time." | Reviews SLA compliance. |
| "Analyze recurring customer issues." | Makes data-driven service improvements. |
